

Consultation questions

The IIRC welcomes comments on all aspects of the Draft International <IR> Framework (Draft Framework) from all stakeholders, whether to express agreement or to recommend changes.

The following questions are focused on areas where there has been significant discussion during the development process. Comments on any other aspect of the Draft Framework are also encouraged through the questions.

Please provide all comments in English.

All comments received will be considered a matter of public record and will be posted on the IIRC's website (www.theiirc.org).

Comments should be submitted by Monday 15th, July 2013.

Name:	<input type="text" value="Marie d'Huart"/>
Email:	<input type="text" value="marie.dhuart@capconseil.be"/>
Stakeholder group:	<input type="text" value="Assurance provider"/>

If replying on behalf of an Organization please complete the following:

Organization name:	<input type="text" value="CAP conseil"/>
Industry sector:	<input type="text" value="Consumer Services"/>
Geographical region:	<input type="text" value="Western Europe"/>

Key Points

If you wish to briefly express any key points, or to emphasize particular aspects of your submission, or add comments in the nature of a cover letter, then the following space can be used for this purpose. Please do not repeat large amounts of material appearing elsewhere in your comments.

Chapter 1: Overview

Principles-based requirements

To be in accordance with the Framework, an integrated report should comply with the principles-based requirements identified throughout the Framework in bold italic type (paragraphs 1.11-1.12).

1. *Should any additional principles-based requirements be added or should any be eliminated or changed? If so, please explain why.*

Interaction with other reports and communications

The <IR> process is intended to be applied continuously to all relevant reports and communications, in addition to the preparation of an integrated report. The integrated report may include links to other reports and communications, e.g., financial statements and sustainability reports. The IIRC aims to complement material developed by established reporting standard setters and others, and does not intend to develop duplicate content (paragraphs 1.18-1.20).

2. *Do you agree with how paragraphs 1.18-1.20 characterize the interaction with other reports and communications?*

3. *If the IIRC were to create an online database of authoritative sources of indicators or measurement methods developed by established reporting standard setters and others, which references should be included?*

- GRI
- Draft of EU Directive
- Loi Grenelle in France

Other

4. Please provide any other comments you have about Chapter 1.

Chapter 2: Fundamental concepts

The capitals (Section 2B)

The Framework describes six categories of capital (paragraph 2.17). An organization is to use these categories as a benchmark when preparing an integrated report (paragraphs 2.19-2.21), and should disclose the reason if it considers any of the capitals as not material (paragraph 4.5).

5. Do you agree with this approach to the capitals? Why/why not?

6. Please provide any other comments you have about Section 2B?

It is very difficult for small business / non-business organisations to adhere / implement IIRC

Business model (Section 2C)

A business model is defined as an organization's chosen system of inputs, business activities, outputs and outcomes that aims to create value over the short, medium and long term (paragraph 2.26).

7. Do you agree with this definition? Why/why not?

Business model (Section 2C) continued

Outcomes are defined as the internal and external consequences (positive and negative) for the capitals as a result of an organization's business activities and outputs (paragraphs 2.35-2.36).

8. *Do you agree with this definition? Why/why not?*

9. *Please provide any other comments you have about Section 2C or the disclosure requirements and related guidance regarding business models contained in the Content Elements Chapter of the Framework (see Section 4E)?*

Other

10. *Please provide any other comments you have about Chapter 2 that are not already addressed by your responses above.*

Chapter 3: Guiding Principles

Materiality and conciseness (Section 3D)

Materiality is determined by reference to assessments made by the primary intended report users (paragraphs 3.23-3.24). The primary intended report users are providers of financial capital (paragraphs 1.6-1.8).

11. *Do you agree with this approach to materiality? If not, how would you change it?*

No. Materiality is also related to the impacts the organisation has on the impacted parties / external stakeholders, through the daily activities of the organisation. They should assess the materiality as they see it daily. The providers of financial capital do not.

12. Please provide any other comments you have about Section 3D or the Materiality determination process (Section 5B).

Focusing on the providers of financial capital can be dangerous as it gives the impression that they are the most important stakeholder. It reinforces the perception that their angle of view is the right one to assess the societal added-value of an organisation.

Reliability and completeness (Section 3E)

Reliability is enhanced by mechanisms such as robust internal reporting systems, appropriate stakeholder engagement, and independent, external assurance (paragraph 3.31).

13. How should the reliability of an integrated report be demonstrated?

Through an external review by stakeholders (= proof of their implication).

14. Please provide any other comments you have about Section 3E.

Other

15. Please provide any other comments you have about Chapter 3 that are not already addressed by your responses above.

Chapter 4: Content Elements

16. Please provide any comments you have about Chapter 4 that are not already addressed by your responses above (please include comments on the Content Element Business Model [Section 4E] in your answer to questions 7-9 above rather than here).

Chapter 5: Preparation and presentation

Involvement of those charged with governance (Section 5D)

Section 5D discusses the involvement of those charged with governance, and paragraph 4.5 requires organizations to disclose the governance body with oversight responsibility for <IR>.

17. Should there be a requirement for those charged with governance to include a statement acknowledging their responsibility for the integrated report? Why/why not?

Yes, because it enhances the personal accountability of a person at the highest level of the organisation (and it hopefully forces him/her to read to report !)

18. Please provide any other comments you have about involvement of those charged with governance (Section 5D).

Credibility (Section 5E)

The Framework provides reporting criteria against which organizations and assurance providers assess a report's adherence (paragraph 5.21).

19. *If assurance is to be obtained, should it cover the integrated report as a whole, or specific aspects of the report? Why?*

The whole report, or at least the materiality analysis on top of the figures and resulting indicators. Partial assurance is misleading.

20. *Please provide any other comments you have about Credibility (Section 5E). Assurance providers are particularly asked to comment on whether they consider the Framework provides suitable criteria for an assurance engagement.*

Other

21. *Please provide any other comments you have about Chapter 5 that are not already addressed by your responses above (please include comments on the materiality determination process [Section 5B] in your answer to question 11 above rather than here).*

Overall view

22. *Recognizing that <IR> will evolve over time, please explain the extent to which you believe the content of the Framework overall is appropriate for use by organizations in preparing an integrated report and for providing report users with information about an organization's ability to create value in the short, medium and long term?*

Development of <IR>

23. *If the IIRC were to develop explanatory material on <IR> in addition to the Framework, which three topics would you recommend be given priority? Why?*

Other

24. *Please provide any other comments not already addressed by your responses to Questions 1-23.*

Please save the completed PDF form to your computer and submit via the IIRC website at www.theiirc.org/consultationdraft2013
